1. Create a Bucket in IBM object storage

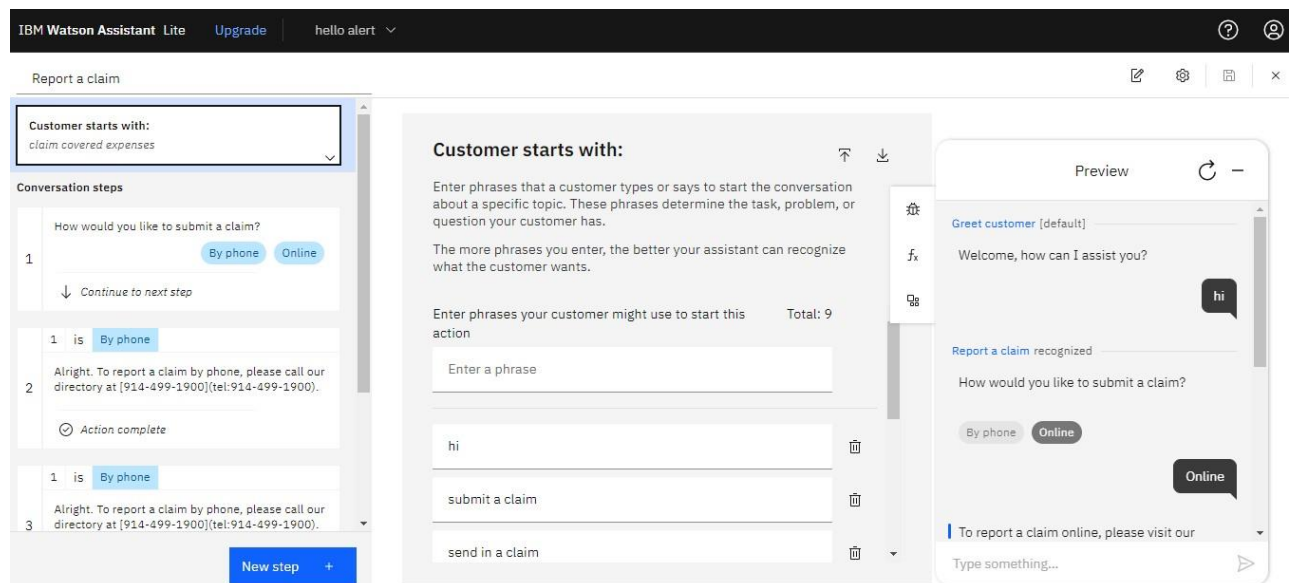

2. Upload an 5 images to ibm object storage and make it public. write html code to displaying all the 5 images.

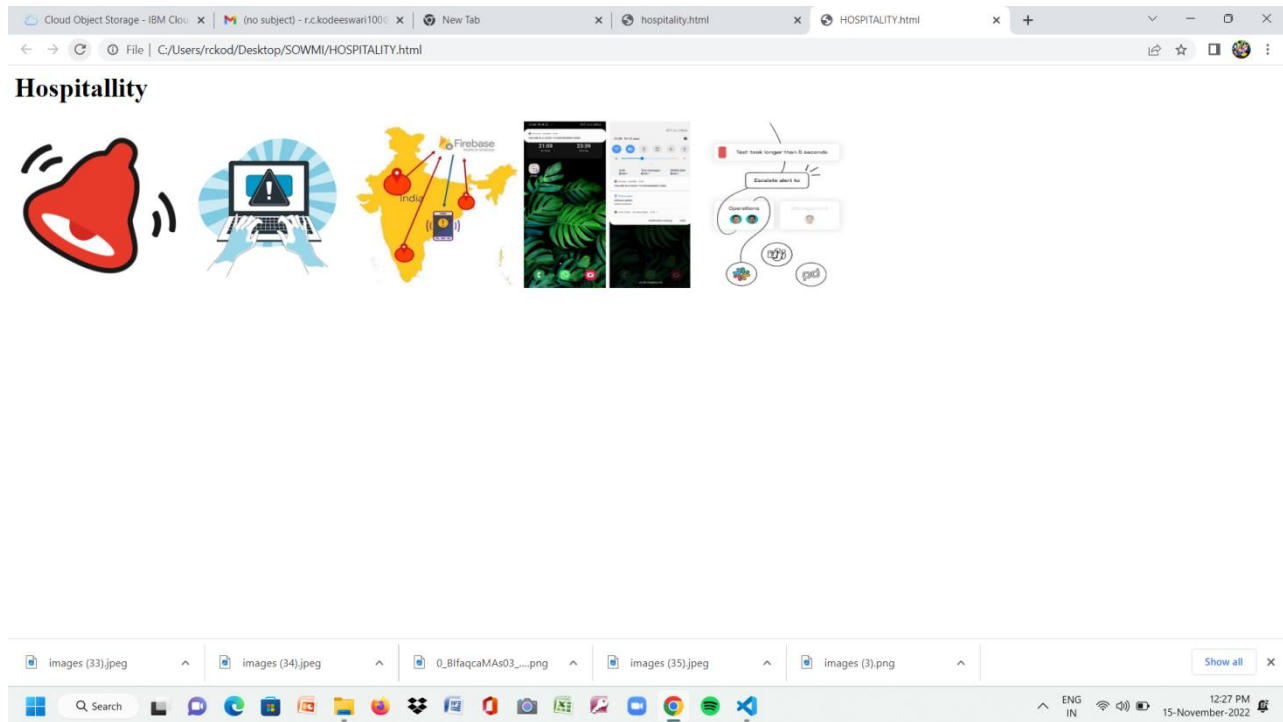

3. Upload a css page to the object storage and use the same page in your HTML code.

```
body{  
  
    background-image:linear-gradient(to right, black, blue, black );  
  
}  
img{  
    border-radius:20px;  
}  
h1{  
    font-family: 'Times New Roman', Times, serif;  
    background-color: aqua;  
    width:fit-content;  
    padding: 10px;  
    color:black;  
}
```

4 Design a chatbot using IBM Watson assistant for hospital. Ex: User comes with query to know the branches for that hospital in your city. Submit the web URL of that chat bot as a assignment.

5.Create Watson assistant service with 10 steps and use 3 conditions in it. Load that script in HTML page.
